

Sun Cap Plus Installation Instructions

For: Wrangler 1992 - 1995

Part Number: 41524

DO NOT INSTALL THIS PRODUCT ON ANY VEHICLE OTHER THAN THOSE LISTED ABOVE

This product is only designed for the vehicles listed above. Failure to install this product on the proper vehicle could cause injury to the vehicle occupants and damage to the product.

Important Note: If your vehicle has not been fitted with a factory soft top, it will be necessary to purchase a Windshield Channel Kit Number 45809-01 from your local distributor.

WARNING

This product is designed to enhance the appearance of the vehicle and to shield the occupants from ordinary weather conditions. Do not rely in any way on the components of this product to contain occupants within the vehicle, or to protect against injury or death in the event of an accident. This top will not protect the occupants from falling objects. Never operate vehicle in excess of manufacturer's specifications.

WEAR SEAT BELTS AT ALL TIMES

Read and follow, precisely, all installation instructions provided when installing top. Failure to do so may result in a poor fitting top and could place occupants of the vehicle in a potentially dangerous situation. After installing or reinstalling the top, check to make sure it has been properly installed.

Installation Tips

After completing the installation, keep these instructions for future reference. Before you begin installing this product, read all instructions thoroughly. Below are a few tips to make this installation easier.

For a smooth fit:

For ease in installation, this product should be installed at temperatures above 72° F. Below this temperature, the fabric may contract an inch or more, making it difficult to fit to the vehicle.

It is normal for the fabric to contract and wrinkle when stored in the shipping carton. Within a few days after the installation, the fabric will relax and the wrinkles will disappear.

Step One

Locate the Sun Cap Plus and orient it on the vehicle.
Drape it over the sport bar and insert the front of the Sun Cap Plus into windshield channel.

Step Two

Locate the long web strap sewn to the center flap inside the top. Wrap the strap around the horizontal tube of the sport bar and pull it toward the front of the vehicle. Thread it through the footman loop located above the windshield. Pull the end of the strap back and thread it through the buckle on the strap. Do not pull the strap tight at this time.

Step Three

Locate the straps sewn to the rear corners of the Sun Cap Plus. Pull the straps toward the rear and wrap them under the seat belt assembly mounts and around the rear sport bar. Pull them tight up towards buckle and thread the ends of the straps through the buckles. Pull the straps tight.

Step Four

Locate the three pairs of hook and loop strips sewn to each side of the top, above the door opening. Wrap the strips around the sport bar and fasten them to each other. Make sure that all the hook and loop is as tight as possible.

Step Five

Locate the web straps sewn to the top at the rear of the door opening (near the center seam of the top). Wrap the strap around the Horizontal Bar and under the Vertical Sports Bar at the rear of the door and thread it through the buckle. Pull the strap tight.

Make sure that all the straps are as tight as possible.
