ASSEMBLY

Parts List

Item	Qty	Description
1	1	Roof rack extension
2	2	Water cap
3	4	Bhcs, M6 x 16
4	1	Allen wrench, 4mm

Step 1

Please check the basket extension and hardware provided. Remove the plastic protective end cap.

Step 2

Disassemble the water-proof caps of roof basket for both sides.

Step 3

Insert the extension inbetween the front and rear sections.

Step 4

Cover the tubing joints with the water-proof caps on the top and bottom side of the basket. Please note that the flat surface of the caps should face outside, and subsequently insert M6 x 16mm screws from the bottom side through the water-proof caps and round tubing. Use wrench to tighten the screw.

Step 5

Installation completely of water-proof cap.

Step 6

Installation completely of extension.

Step 5

Carrying the bicycle: Use safety strap to wrap rear tire around the round tubing for further secure, and feed the end of the safety strap into the buckle; tighten the strap securely.

Remove the front wheel from bicycle:

Insert front fork of bicycle onto the fork mount at front of cargo basket, and then press the lever of quick release down to secure.

⚠ CAUTION

Please be certain the fork is fully seated onto the fork mounts.

⚠ CAUTION

Please perform final check to make sure the bike secure before traveling

Step 6

The two adapters are double-sided and are compatible with wider forks. Simply remove the adapter and flip around and re-install to use alternate mounting option.
