Visit [www.luvernetruck.com](http://www.luvernetruck.com) for a full-color copy of this instruction manual, as well as helpful videos, guides and much more!

Before you begin installation, read all instructions thoroughly.

Proper tools will improve the quality of installation and reduce the time required.

Periodic inspection of your product should be performed to ensure all hardware and / or components remain secure.

To help prevent damage to the product or vehicle, refer to the specified torque specifications when securing hardware during the installation process.

## Maintenance

Mild automotive detergent may be used to clean the product. Do not use dish detergent, abrasive cleaners, abrasive pads, wire brushes or other similar products that may damage the finish.

# INSTALLATION

## Step 1

Set the Grip Step board on the vehicle mounting brackets. Insert the appropriate number of embossed brackets into the Grip Step channel and align with the mounting brackets.

Using the 5/16 carriage bolts, flat washers, and serrated flange nuts, loosely attach the board to the brackets. Adjust the board front to back/in and out, then tighten all hardware to spec.

## Step 2

Slide the end cap over the ends of the board, attach using the self drilling screws.
