WIRING HARNESS WITH BUTTON

NYLON CABLE TIES

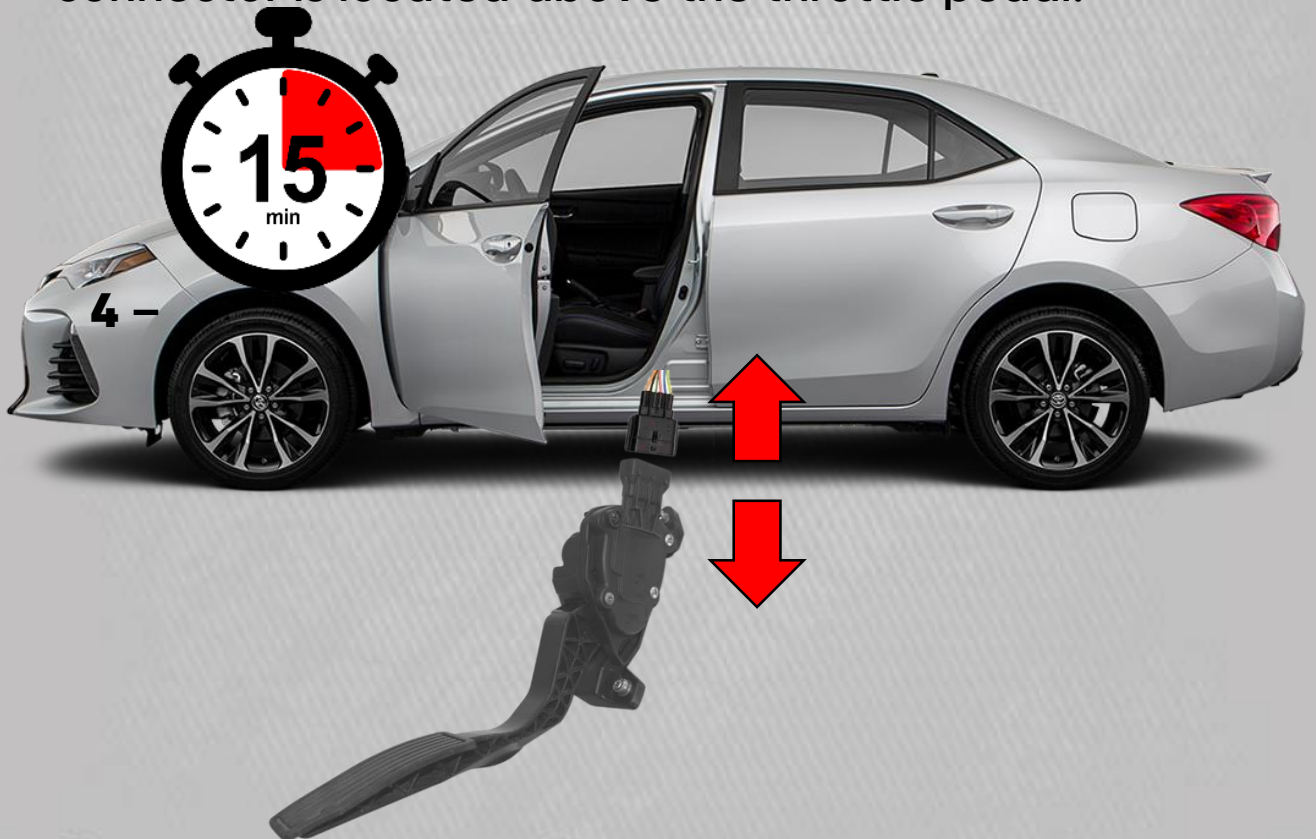

# INSTALLATION

**1** – The vehicle's electronic system must be in perfect operational condition and perform within Original Equipment (OE) specifications.

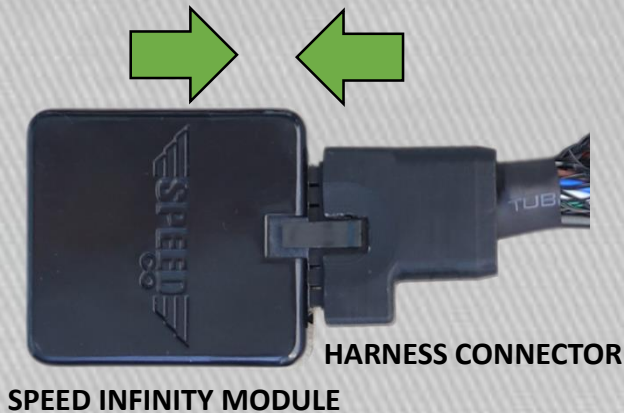

**2** – Make sure the vehicle is off, and there is no key in the ignition. Wait at least 15 minutes to the engine to cool down and leave the driver's door open. Failure to do so may cause damage to the vehicle and the product.

**3** – Disconnect the throttle pedal connector. The connector is located above the throttle pedal.

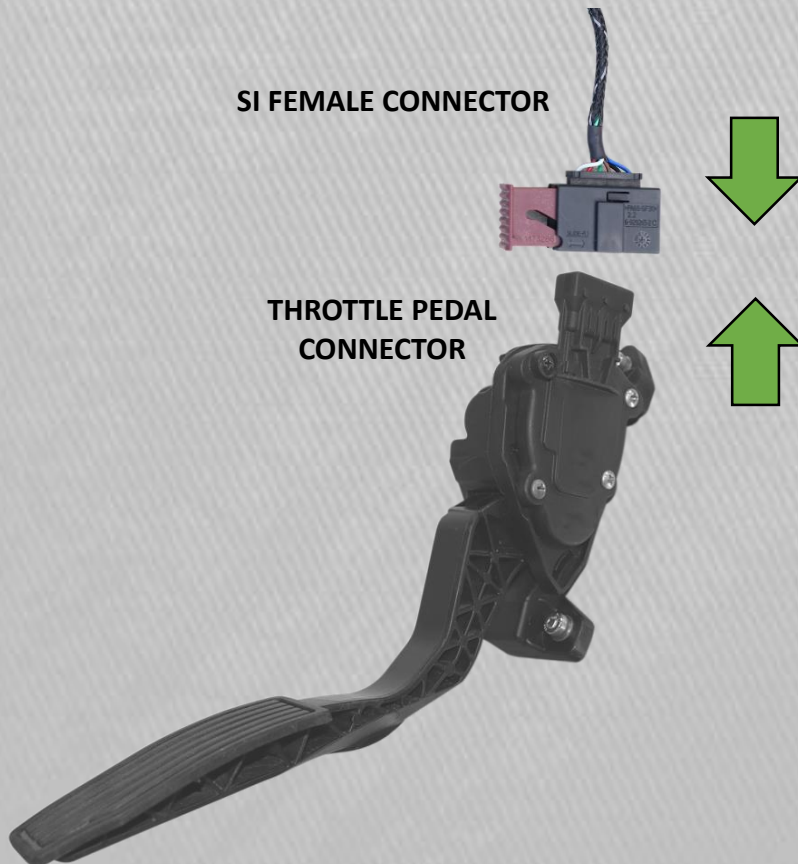

# INSTALLATION

**5 – Connect the Speed Infinity Module to the harness connector.**

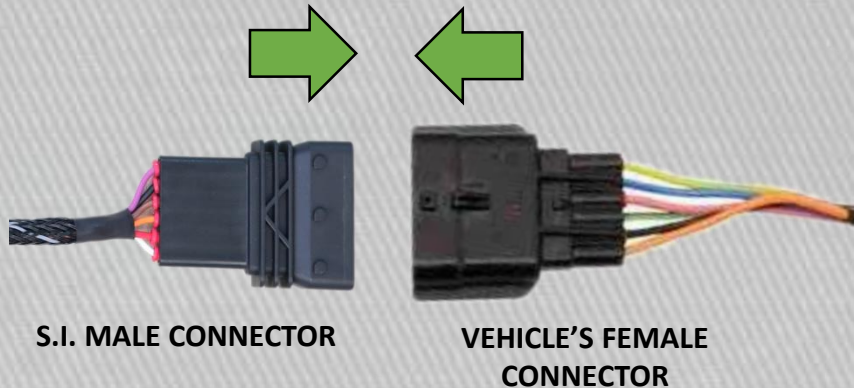

**6 – Connect the *S*/female connector to the throttle pedal connector.**

# INSTALLATION

**7** – Plug the *S*/male connector to the vehicle's female connector.

**8** – Secure the button to a desired location, avoiding placing the harness in contact with any moving parts. **Failure to follow this instruction may result in damage to the product and could cause a vehicle accident.**

**9** – Fasten the *Speed Infinity module* and its harness to a safe location, preferably under the dash panel. Secure away from the air/heating conduits and steering shaft.

# INSTALLATION

**10** – Turn on the ignition and press the SPEED INFINITY button. It will change colors as per the driving mode selected (Green, Red, Yellow, Blue, Turquoise, White).

ECO

STOCK

**11** – There may be interference in the operation of the product if the vehicle has radio frequency equipment and accessories that consume a lot of electric current, such as an external battery, automotive sound system, xenon headlight, etc

**Reminder: We have a tech support team always ready to assist you whenever you may need.**

# APP

The SPEED INFINITY new version brings many advantages and innovations such as:

- \* Sensitivity settings that gives the user 100+ driving configurations;
- \* Pedal Lock to increase vehicle safety;
- \* Message alerts;
- \* ECO Mode. Balances performance and fuel economy. Decreases pollutants emissions;
- \* DPW cutout EVO integration. Control your DPW cutout through the SPEED INFINITY APP and set it to open/close gradually by pressing the throttle pedal. The cutout's remote control still will work but it prioritize the app to work with first.

You need to register the APP first in order to access all the features.

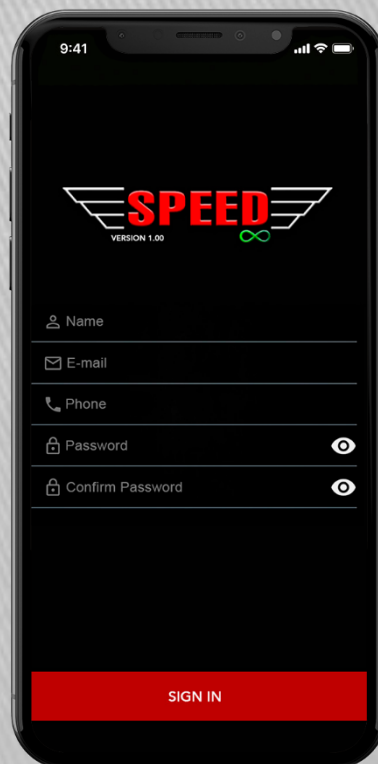

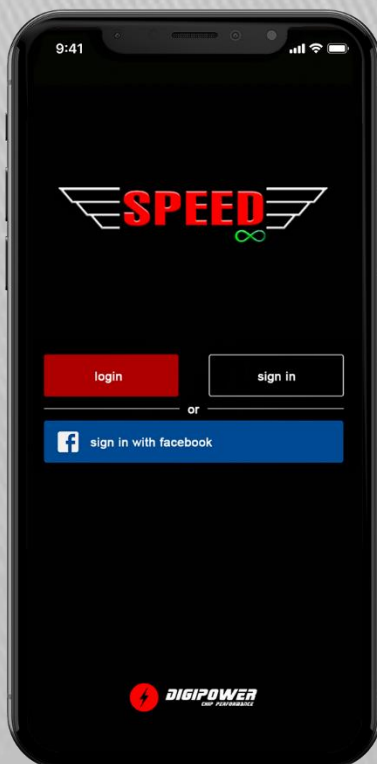

# APP

**DOWNLOAD THE APP AT YOUR DEVICE STORE**

## USER REGISTRATION

After downloading the APP, register the user by using a valid email. It is very important in case you need to recover your password in the future.

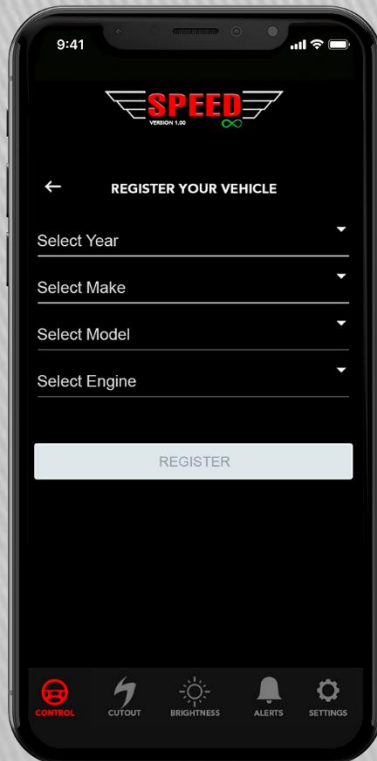

# APP

## VEHICLE REGISTRATION

Vehicle registration is necessary after the user registration. **\*Make sure you register the correct vehicle information to get the best product operation for your vehicle.**

Select the Year, Make, Model and Engine of your vehicle.

**\*After vehicle registration, the SPEED INFINITY APP will calibrate the best fitment to your vehicle and will be ready to be used.**

# APP

## DRIVING MODES

SPEED INFINITY has 6 driving modes. You can select them by clicking on the desired driving mode icon.

# APP

## SENSITIVITY SETTINGS

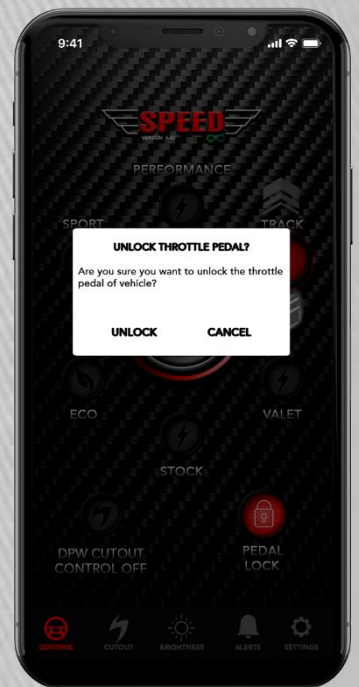

SPEED INFINITY has 100+ sensitivity settings. Hold the driving mode you want for 2 seconds and the sensitivity setting will be displayed. You can increase (up to +10) or decrease (up to -10) the sensitivity of the driving mode. On Valet Mode you can limit pedal acceleration to the speed you desire.

# APP

## PEDAL LOCK

This feature removes all acceleration by locking the pedal. Only the APP will unlock this mode and allow the vehicle to accelerate again. Make sure you keep your cell phone charged.

# APP

## DPW CUTOUT INTEGRATION

The new SPEED INFINITY APP brings new features. One of them is the integration with the DPW Cutout EVO. If you have the DPW Cutout EVO installed in your vehicle, press the option "Connect DPW Cutout" on the SPEED INFINITY screen.

The SPEED INFINITY APP will search for the device. After the search, select the DPW Cutout EVO by the serial number.

# APP

## DPW CUTOUT EVO CONTROL

After selecting the DPW Cutout EVO you can start to control it from the SPEED INFINITY APP. Only press on the DPW Cutout EVO to open and close.

# APP

## DPW CUTOUT EVO SETTING by THE ACCELERATOR PRESSURE

At the bottom left, press on the DPW icon and it will take you to a screen where you can set the pedal pressure range to open and close the cutout automatically. You can also disconnect the DPW Cutout from the SPEED INFINITY APP by clicking on the link icon.

\*The cutout's remote control still will work but it will prioritize the pedal pressure range set on the SPEED INFINITY APP.

# APP

## BUTTON BRIGHTNESS CONTROL

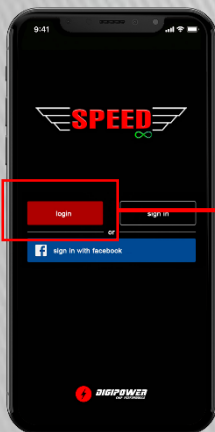

Another new feature of the SPEED INFINITY APP is the possibility to control the module button brightness, by dimming the led light. At the center bottom of the screen, click on the brightness icon to access the brightness setting screen. Now drag the bar to increase or decrease the led light intensity. You can also turn the driving mode button light off.

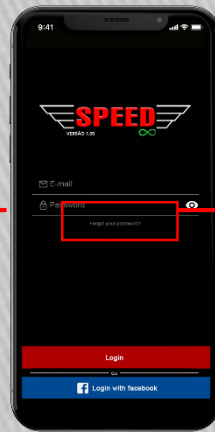

# APP

## PASSWORD RECOVERY

It is possible to recover your password by clicking on "Forgot my password" on the Login screen. Type the registered email and click on "recover password". A new password will be sent to the registered email.

# TROUBLESHOOTING

## DRIVING MODE BUTTON IS NOT WORKING

- ✓ Click on the button to test if the led change colors and driving mode.
- ✓ Check if the SPEED INFINITY is connected to the throttle pedal.
- ✓ Check if the SPEED INFINITY module is connected to its harness.
- ✓ Make sure the vehicle's engine is on.
- ✓ Turn the ignition off and wait 5 minutes to turn it on again. Then, start the vehicle and verify if the issue persists.

## VEHICLE IS ACCELERATED

- ✓ Check if the SPEED INFINITY is connected to the throttle pedal.
- ✓ Check if the SPEED INFINITY module is connected to its harness.
- ✓ Check if the engine is working.
- ✓ Check if the application label and the registered vehicle are the same as your vehicle.
- ✓ Check the installation area. SPEED INFINITY cannot stay loose on the vehicle's floor.

# TROUBLESHOOTING

- ✓ Check if the SPEED INFINITY is correctly tightened by the nylon cable ties.
- ✓ Turn the ignition off and wait 5 minutes to turn it on again. Then, start the vehicle and verify if the issue persists.

## VEHICLE LOSES ACCELERATION

- ✓ Check for warning lights on the dashboard.
- ✓ Check if the SPEED INFINITY is connected to the accelerator pedal.
- ✓ Check if the SPEED INFINITY module is connected to its harness.
- ✓ Check if the engine is working.
- ✓ Check if the application label and the registered vehicle are the same as your vehicle.
- ✓ Check the installation area. SPEED INFINITY cannot stay loose on the vehicle's floor.
- ✓ Check if the SPEED INFINITY is correctly tightened by the nylon cable ties.
- ✓ Turn the ignition off and wait 5 minutes to turn it on again. Then, start the vehicle and verify if the issue persists.

# WARRANTY TERMS

DIGIPOWER USA LLC, warranty **03 (three) years** on all manufacturing defectives. The warranty will be guaranteed by Digipower USA LLC, to the first buyer, for a period of **03 (three) years**, upon presentation of an invoice or a warranty certificate being non-transferable.

This warranty only covers defects in the manufacture of parts and components of the equipment purchased under normal use in accordance with the instructions contained in the installation manual supplied by the manufacturer.

In addition, the warranty will be automatically canceled if the equipment is subject to repairs by unauthorized persons, to receive maltreatment or to suffer damages due to accidents, falls, variations of electrical voltage and overload specified above, or any unforeseeable occurrence due to misuse of the equipment by the user.

# WARRANTY TERMS

Device repairs and maintenance under warranty will be the exclusive responsibility of the DIGIPOWER Tech Support Department.

Tampered Products or illegible serial number will also not be covered by this warranty.

Customer must call or email Digipower in advance to obtain an authorization of returned goods, which must be shipped with the returned product.

Shipping costs will be the customer's responsibility.

The terms & conditions of this policy may change without prior notice.
