Exhaust Insulation

BLACK EXHAUST WRAP

Black Exhaust Wrap features a proprietary black coating and holds its color longer than similar graphite-coated wraps. It reduces radiant heat damage and can lower exhaust related underhood temperatures by as much as 50%. It can withstand continuous 1200°F and intermittent 2000°F temperatures.

Heatshield Products Black Exhaust Wrap withstands hotter exhaust and header gas temperatures, decreases the gas density and allows the exhaust gases to exit the system faster via increased gas velocities. Increased exhaust scavenging is produced; this pulls the intake gases through the cycle faster, helping to lower intake temperatures and increase horsepower.

Installation is easy: Wrap it around your exhaust pipe, using overlap to hold it in place (like a hockey stick or tennis racket grip), then use our Thermal-Tie™, hose clamps or Tie Wire™ products to secure the ends.

FEATURES:

-  **1200°F** CONTINUOUS  **2000°F** INTERMITTENT
- Lowers underhood temps up to 50%
- Deep black coating stays black
- Increases exhaust scavenging
- Made in the USA

PART NO.	DESCRIPTION
321025	1 in x 25 ft roll
321050	1 in x 50 ft roll
322015	2 in x 15 ft roll
322025	2 in x 25 ft roll
322050	2 in x 50 ft roll
322100	2 in x 100 ft roll
324100	4 in x 100 ft roll
326100	6 in x 100 ft roll
