Heat Shield Barrier

## HEATSHIELD MAT™

Keep your cool with our Heatshield Products Heatshield Mat. When used in applications with 1 inch of airspace and good airflow, this heatshield cloth can reflect 90 percent of radiant heat. Face the aluminized side toward the source of radiant heat to shield heat away. This product withstands 1,100 degrees F of radiant heat (requires minimum of 1 inch of airspace) and up to 450 degrees F of direct heat, perfect for using underneath your floor plan to shield heat from your DPF, muffler, catalytic converter and exhaust system, or it can be used on the firewall to shield engine heat. It can also be used as a cold-air intake heatshield. Put it on your metal or plastic airbox to stop heat from raising air intake temperatures. The Heatshield Mat is available with a high-temperature peel-and-stick adhesive. The self-adhesive version is not recommended for rough, unfinished fiberglass or carbon fiber.

### FEATURES:

● **1100°F** CONTINUOUS ● **2000°F** INTERMITTENT

- Capable of reflecting over 90% of radiant heat
- Flexible; bends and conforms to almost any shape
- All rolls 0.030 inch thick
- Made in the USA

PART NO.	DESCRIPTION
720305	36" x 58" non-adhesive
720505	58" x 60" non-adhesive
721005	18" x 18" w/adhesive (ships folded)
721101	12" x 12" w/adhesive (ships folded)
721102	12" x 24" w/adhesive (ships folded)
721150	12" x 50' w/adhesive
721202	24" x 24" w/adhesive (ships folded)
721204	24" x 48" w/adhesive
721305	36" x 58" w/adhesive
721505	60" x 58" w/adhesive
