Heat Shield Sleeve

STEALTH SLEEVE™

Grab this heat shield sleeve to protect vital harnesses and fluid for your ride. Stealth™ Sleeve roots are based in Heatshield Product's Lava™ Tube sleeve but has a proprietary black coating. This gives it the ultimate stealth carbon fiber look while offering rugged heat protection. Capable of withstanding 1200F continuous this sleeve is ideal for close proximity heat as it does not need a full 1" air space from heat source like reflective heat sleeves.

Installation is a snap with the hook-and-loop closure allowing this sleeve to be used on wire harnesses, lines, and hoses without disassembly like a slip-on heat sleeve. Simply rotate the seam away from the heat source to ensure long lasting heat protection.

FEATURES:

- **1100°F** CONTINUOUS **2000°F** INTERMITTENT
- Volcanic rock fiber naturally chemical and acid resistant
- Excellent for applications close to exhaust heat
- Great for turbo oil lines
- Made in the USA

PART NO.	DESCRIPTION
282021	1/2 in x 18 in
282022	1/2 in x 36 in
282023	1/2 in x 6 ft
282041	3/4 in x 18 in
282042	3/4 in x 36 in
282043	3/4 in x 6 ft
