Heat Shield Sleeve

THERMAFLECT™ SLEEVE

Shield wiring, lines, hoses and cables from radiant heat. Thermaflex Sleeve™ acts as a thermal-barrier capable of reflecting up to 90 percent of radiant heat (requires minimum of 1 inch airspace and good airflow). It is excellent to use on fuel lines, wiring looms, air intake, intercooler pipes and air conditioner hoses. By keeping fuel and air-intake temperatures cool, it helps to prevent vapor lock, improves performance, increases mileage and reduces fuel evaporation. It weighs a fraction of silicone-coated sleeves and offers superior radiant heat insulation. Thermaflex Sleeve™ withstands 1,100 degrees F of continuous radiant heat and 500 degrees F direct heat.

Available in sewn and a hook-and-loop seam.
