Heat Shield Sleeve

UTILI-SHIELD™

The new Heatshield Products Utili-Shield™ Shield terminal and connector insulation protects electrical terminals, an connectors, and more from heat damage. This can prevent failure and save money by preventing repairs.

Made from our Lava Shield Fiber, these protectors are water, chemical, and even acid resistant. Rated for 1200F of continuous radiant heat they are engineered to survive in harsh environments.

Installation is a snap with the hook-and-loop closure allowing it to be used on wire harnesses, lines, and hoses without disassembly. Simply rotate the hook and loop closures away from direct contact with heat sources. This will ensure long lasting heat protection.

FEATURES:

- **1200°F** CONTINUOUS **2000°F** INTERMITTENT
- Volcanic rock fiber naturally chemical and acid resistant
- Works on terminals and AN connectors
- Protects components from overheating
- Made in the USA
