

INSTALLATION INSTRUCTIONS

Part Number YA-1306

This filter fits: See catalog for current applications

* **FREE K&N® decal** To register your warranty, please see us online at knfilters.com/register. **FREE K&N® decal ***

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modification will be required. However the following procedures **MUST** be followed to ensure the proper fit and seal of the K&N® air filter.

INSTALLATION:

1. Locate air box
2. Remove air box cover
3. Wipe away any dirt from the air box cover to prevent dirt from falling into air box
4. Remove OE o-ring from air box lid. This will not be used with the installation of K&N® air filter. (Fig. 1)
5. Remove OE air filter and install K&N® air filter. (Fig. 2 & 3)

NOTE: The K&N® air filter was designed to fit in one direction. The Bump seal on K&N® air filter will fit into the top of OE air box where the OE o-ring was removed.

6. Reinstall air box cover and tighten screws. (Fig. 4 & 5)

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
