

Product information

Motorbike Chain Lube

PI 31/03/09/2020

Description

Fully synthetic chain grease, extremely adhesive and water resistant. Excellent creep ability and lubrication behavior. Extremely effective and lasting on high-speed chains. Provides increased chain life and reduced elongation.

Properties

- reduces chain elongation
- friction and wear reducing
- resistant to acceleration forces
- excellent adhesion
- especially cold, hot and splash-water resistant
- highest load-carrying capacity
- excellent penetration action
- outstanding corrosion protection

Technical data

Base	Syntheseöl, Additive / Synthetic oil, additives
Color / appearance	klar, gelblich / clear, yellowish
Operating temperature range	-22 bis 356 -22 to 356 °F
Odor	charakteristisch / characteristic
Form	flüssig, aerosol / liquid, aerosol
Flash point	14 °F

Areas of application

Fully synthetic formulation for initial lubrication or maintenance of drive chains. Excellent for use in dusty, dirty and corrosive operating conditions. For high load- and high-speed chains with and without O/X-rings.

Application

Use suitable chain cleaner before application. Spray Motorbike Chain Cleaner onto cleaned chain. Allow enough time for lube to penetrate and stabilize before use.

Comment

 **WARNING:** Reproductive Harm -
