POLISHED STAINLESS STEEL – LIMITED LIFETIME
POWDER COATED BLACK – 3 YEARS

PARTS LIST:

PARTS LIST:

Qty	Part Description	Qty	Part Description
1	Front Grille Assembly	4	8mm Lock Washers
1	Mesh Fill Panel	2	8mm Hex Nuts
2	"L" Brackets	2	6-1.00mm x 20mm Button Head Bolts
1	Driver/left Top Mounting Bracket	2	6-1.00mm x 20mm Hex Bolts
1	Passenger/right Top Mounting Bracket	2	6-1.00mm x 16mm Hex Bolts
1	Driver/left Bottom Mounting Bracket	2	6mm x 12mm x 1.6mm Small Flat Washers
1	Passenger/right Bottom Mounting Bracket	4	6mm x 18mm x 1.6mm STD Flat Washers
4	8mm Plastic Washers	4	6mm Lock Washers
2	6mm Plastic Washers	2	6-1.00mm Hex Nuts
4	8-1.25mm x 25mm Hex Bolts	1	4mm Wrench
6	8mm x 24mm x 2mm Flat Washers		

**PROCEDURE:**

REMOVE CONTENTS FROM BOX. VERIFY ALL PARTS ARE PRESENT. READ INSTRUCTIONS CAREFULLY BEFORE STARTING INSTALLATION. ASSISTANCE IS RECOMMENDED.

1. Open hood on vehicle. Remove clips attaching front grille to top of radiator support, **(Figure 1)**.
2. Once all "push-in" fasteners have been removed, firmly pull grille straight out from vehicle to release the clips on the back of the grille, **(Figure 2)**.
3. Move to the top of the passenger/right side of the grille opening. Temporarily remove the forward factory hex bolt attaching the radiator support to the top of the fender, **(Figure 3)**.
4. Select the passenger/right Top Bracket, **(Figure 4)**. Reuse the factory hex bolt to attach the Top Bracket to the top of the radiator support, **(Figure 5)**. Do not tighten hardware at this time.
5. Move down to the front body mount and frame. Temporarily remove the outer factory hex bolt attaching the front inner fender reinforcement to the lower radiator crossmember, **(Figure 6)**.
6. Select the passenger/right Lower Bracket, **(Figure 7)**. Reuse the factory hex bolt to attach the Bracket to the front of the crossmember, **(Figure 8)**. Do not tighten hardware at this time.
7. Repeat **Steps 3—6** to install the driver/left Top and Bottom Brackets.
8. Carefully unwrap the Aluminum Grille. Select (1) "L" Bracket and (1) 8mm Square Plastic Washer. Place the Plastic Washer on top of the mounting tab on the back of the Grille, **(Figure 9)**.
9. Attach the "L" Bracket to the top of the Plastic Washer and mounting tab with the included (1) 8mm x 25mm Hex Bolt, (2) 8mm Flat Washers, (1) 8mm Lock Washer and (1) 8mm Hex Nut, **(Figure 9)**. Repeat previous Steps to attach the remaining "L" Bracket on the driver/left side of the Grille. **NOTE:** Square Plastic Washers are included to reduce corrosion between the aluminum Mesh Panel, Grille and the steel brackets. Use is recommended.
10. Determine if bar style LED light (available separately) or Mesh Fill Panel will be attached to back of Grille at this time:

LED Bar Style Light Installation (light available separately)

- a. Select the LED bar light, (not included). Attach the light to the "L" Brackets with the hardware supplied with the light or the included (2) 6mm x 16mm Hex Bolts, (2) 6mm Lock Washers and (2) 6mm x 18mm STD Flat Washers, **(Figures 10 & 11)**.
- b. Adjust light and tighten hardware.
- c. Follow instructions included with the light to attach to vehicle electrical system.

Fill Panel Installation (no light installed)

- a. Select the Mesh Fill Panel, (light cannot be installed with Mesh Panel). Attach the Fill Panel to the "L" Brackets with the included (2) 6mm x 25mm Hex Bolts, (4) 6mm x 18mm STD Flat Washers, (2) 6mm Lock Washers and (2) 6mm Hex Nuts, **(Figure 10)**.

11. With assistance, carefully place the Grille over the Top Brackets. Slide (1) 8mm Plastic Washer between the passenger/right mounting tab on the Grille and the top of the Bracket. Attach the Grille to the passenger/right Bracket with the included 8mm x 25mm Hex Bolt, 8mm Lock Washer and 8mm Flat Washer, (**Figures 12 & 13**). Leave hardware loose. Repeat this Step to attach the Grille to the driver/left Top Bracket. **NOTE:** Square Plastic Washers are included to reduce corrosion between the Grille and steel brackets. Use is recommended.
12. Line up the bottom of the Grille under the Bottom Brackets. Slide (1) 6mm Plastic Washer between the passenger/right Bottom Bracket and the inside of the Grille. Attach the Grille to the passenger/right Bottom Bracket with the included 6mm x 20mm Button Head Bolt, 6mm Lock Washer and 6mm x 12mm Small Flat Washer, (**Figures 14 & 15**). Leave hardware loose. Repeat this Step to attach the Grille to the driver/left side Bottom Bracket.
13. Stand back from the vehicle and check to see that the Grille is centered and level on the vehicle and adjust as required. Once properly aligned, fully tighten all hardware.
14. Do periodic inspections of the installation to make sure that all hardware is secure and tight.

To protect your investment, Do not use any type of polish or wax that may contain abrasives that could damage the finish. Mild soap may be used to clean the Grille.

No.	Parts Identification
1	Passenger / Right 'Rear' Bracket marked "PR"
2	Driver / Left 'Rear' Bracket marked "DR"
3	Passenger / Right 'Center' Bracket marked "PC"
4	Driver / Left 'Center' Bracket marked "DC"
5	Passenger / Right 'Front' Bracket marked "PF"
6	Driver / Left 'Front' Bracket marked "DF"

Note:

- This guide is to identify the parts and not a reference for part count.
- For part count, refer Parts List.
- Product / Bracket image is representative and actual design may vary.

PRODUCT CARE

- Periodically check the product to ensure all fasteners are tight and components are intact.
- Regular waxing is recommended to protect the finish of the product.
- **Use ONLY Non-Abrasive automotive wax.** Use of any soap, polish or wax that contains an abrasive is detrimental and can scratch the finish leading to corrosion.
- Aluminum polish may be used to polish small scratches and scuffs for **Stainless Steel finish.**
- Mild soap may be used to clean the product for both **Stainless Steel and Black finish.**

FAQ's

1. Hardware's are not of correct size.

In GMC / Chevrolet truck model 2006 & up, customer needs to reuse the factory body bolts to install the bracket. If your vehicle is not GMC / Chevrolet 2006 & up, ensure that holes are not partially covered with any plastic grommet or rust? If it is, remove the plastic grommet & rust from the thread holes & re-try the installation.

2. Mounting Bracket are not getting Installed properly.

In some cases Illustration images shown in Installation manual may not be the exactly same as per actual vehicle images ,also if Driver / Passenger side mounting brackets are very identical in the design, suggest referring Parts Identification guide to avoid fitment issue.

3. Products are thumping / rattling after installation.

Ensure that all required mounting brackets / hardware's are installed & tighten correctly. Suggest using white lithium / regular grease between the metal to metal contact surfaces.

4. Side Bar is not aligning with vehicle / Step Pads are not aligning with vehicle doors.

Side bar may be interchanged or mounting brackets are not installed at the correct position in the vehicle. Refer Parts identification guide.

5. Missing / Excess Hardware.

Recheck hardware count as per the part list.

6. Product not installing properly.

Ensure make model year, cab length and bed size of your vehicle is listed in the application. All installation steps are followed correctly.
