NOTICE

Before you begin installation, read all instructions thoroughly.

Proper tools will improve the quality of installation and reduce the time required.

This installation requires no drilling.

Periodic inspection of the trailer hitch should be performed to ensure all mounting hardware remains tight and structural components are secure.

To help prevent damage to the product or vehicle, refer to the specified torque specifications when securing hardware during the installation process.

SAFETY INSTRUCTIONS

Safety glasses should be worn at all times while installing this product.

Warranty Information

Our products are backed by industry-leading warranties. For a copy of the product warranties or to provide feedback, please contact our support line using the phone number at the bottom of this document.
ASSEMBLY

Parts List

Item	Qty	Description
1	6	Hex bolt, M14-1.50 x 40mm, CL 10.9
2	6	Conical-toothed washer, 9/16"

Passenger-side frame rail

Driver-side frame rail

Existing weldnuts (both sides)

HEX BOLT

Step 1

Lower the spare tire from the inside of the vehicle by using the tools under the storage compartment.

Step 2

Weldnut cleaning may be required.

Raise the trailer hitch into position and secure with the provided M14 hardware (#1, #2).

Torque all M14 bolts to 139 lb-ft.

Step 3

Raise the spare tire back into place following the instructions from Step 1.
