1	DRIVER-SIDE BRACKET	1
2	PASSENGER-SIDE BRACKET	1

Refer to this **LOT NUMBER** when contacting customer service: \_\_\_\_\_

## **PLEASE READ BEFORE STARTING INSTALLATION**

While MBRP has made every effort to ensure that all components of this kit are of superior quality and properly packaged, it is the installer's responsibility to ensure the following before installation;

- that ALL components shown above are present.
- that ALL mating components fit together.
- that there are no damaged components.
- that the product you have purchased is appropriate for your vehicle year, model and configuration.
- that the product will not interfere with any modifications previously installed or planned.
- that you have read and understand these instructions.

If you have any questions or are uncertain about any aspect of the installation of this kit to your vehicle please contact your dealer before commencing installation.

Figure 1

1. Use tape or a pen to mark hood hinge positions on both driver and passenger sides before installation.  
**Refer to Figure 1.**
2. Apply tape or stretch film over edge of hood where brackets are being installed to protect paint during installation.

## Bracket Installation

**Install the driver-side assembly first to ensure proper clearance and verify there is no interference with the wiper mechanism.**

3. Loosen driver side hood hinge nuts shown in **Figure 1** using a 13mm socket, enough to slide the **Driver-Side Light Brackets** between nuts and hood hinge. **Do not install bracket between hood and hood hinge**, doing so will raise the hood.  
**Refer to Figure 2.**
4. Ensure bracket is installed with the mounting slots fully seated against the hood mounting studs. Tighten hood hinge nuts while positioning hood in line with previously marked indicators.  
**Refer to Figure 2.**
5. **Install Light Assembly on Driver-Side Light Bracket.**  
**Refer to Figure 3.**
6. **Repeat steps 3-5 on the Passenger Side of the vehicle.** Ensure sufficient clearances with wipers and windshield in all hood positions (hood open and hood closed).

**Congratulations!** You've just unlocked a brighter, bolder way to stand out. With your new **MBRP** ditch-light brackets installed, your ride is ready for the lighting setup that will turn heads, cut through the dark, and maybe even spark a little envy.
