

APRF250 FORD F250/F350 ADJUSTABLE PANHARD ROD

Part Number	Description	Quantity
3460006	Panhard Rod F250	1
3490001	Bush – Panhard Rod	4
4721672	Crush Tube – Panhard Rod	2

Fig 1

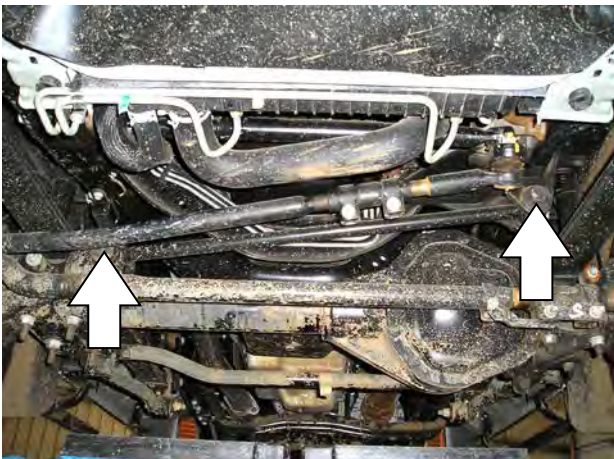

Fig. 2

Removal of panhard rod makes fitment of new leaf springs and suspension system components easier.

1. Remove bolts (shown by arrows Fig. 1) securing panhard rod at each end and remove panhard rod.
2. Assemble new panhard rod as shown by Fig.2.
3. Apply grease to bushes for lubrication.
4. Following fitment of leaf springs and any accessories such as bullbars and winches, fit lower, fixed end of panhard rod to axle of vehicle.
5. Adjust top end of panhard rod until hole in crush top is aligned with hole in mounting bracket on chassis.
6. Secure panhard rod in place and fasten lock nut against adjustable end of panhard rod.
7. Following fitment of suspension system a wheel alignment is recommended.
