

### **Pipercross Panel Filter: Owner Hints & Tips**

Congratulations you've found your filter with Pipercross. Below are some useful hints and tips to help you get the best performance, longevity, and enjoyment from your air filter.

#### **Before we start: Do You Have the Correct Filter**

**How to verify compatibility:** Check the part number on your Pipercross filter and compare it with your order or vehicle listing.

- Use the official Pipercross website search feature to confirm fitment.
- Match your airbox shape and size with the filter dimensions.
- If unsure, contact Pipercross directly with your vehicle's make, model, year, and engine code.

#### **Installation Tips**

- Always ensure the airbox is clean and free from debris before fitting the filter.
- Double-check the filter orientation; it should sit flush with no gaps.
- Avoid overtightening airbox screws or clips.

#### **Helpful Reminders**

- Never drive without a filter installed.
- Inspect after heavy rain or off-road use.
- Keep a note of cleaning intervals.

#### **Contacting Pipercross**

- If you need help, product advice, or technical support directly from Pipercross, you can reach their customer service team using the following options:
- Website: [www.pipercross.us](http://www.pipercross.us) Visit the official Pipercross site and navigate to the Support or Contact page.
- Email: [sales@pipercrossusa.co](mailto:sales@pipercrossusa.co) Use the customer support email provided on the website to submit product questions.
- For the most accurate and up-to-date contact details, always refer to the official Pipercross website.
