For Adult Use

**WARNING:** Cancer and Reproductive Harm-  
[www.p65Warnings.ca.gov](http://www.p65Warnings.ca.gov)

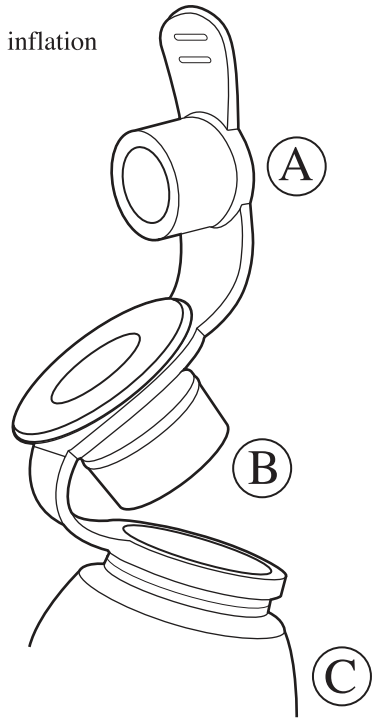

## SET UP GUIDE

Your River Drifter tube has a Two Stage Valve for easy inflation and deflation. This Valve is constructed in three parts.

- A. Valve Cap
- B. Middle Valve
- C. Bladder Valve

## INFLATION

1. Make sure middle valve (B) is inserted into bladder valve (C) securely.
2. Locate proper pump adapter and insert into middle valve (B).
3. Turn pump on and inflate to desired firmness. **DO NOT OVERINFLATE!**
4. Remove pump and push valve cap (A) into middle valve (B) firmly.
5. Unplug pump when not in use.

## DEFLATION

1. Pull middle valve (B) from bladder valve (C).

## WARNING:

- THIS IS NOT A LIFE SAVING OR PERSONAL FLOTATION DEVICE.
- INSPECT ITEM CONDITION BEFORE EACH USE. DO NOT USE DAMAGED PRODUCT.
- NEVER LEAVE CHILDREN UNATTENDED WHILE IN USE.
- DO NOT DIVE OR JUMP ONTO OR FROM THIS PRODUCT.
