Here's how 1/4" Silencer Megabond treats the front doors:

- Explain that the door is a "rigid and porous" thin plastic panel and sound passes right through.
- The doors allow 15-18% of all noise to enter interior right next to driver and passengers.
- There is nothing stopping this noise from entering the vehicle.
- Use with Ultra™ increases effectiveness.
  - Silencer Megabond seals the inner door panel and blocks noise **before** it enters.
  - Megabond reduces the airborne noise while the HushMat Ultra reduces the vibration and noise.
  - Results in an incredibly quieter ride and you'll hear more music from the audio system.

## Features/Technical

- Absorbs wind, engine, road, tire and exhaust noise up to 4000 Hz.
- Thermal insulation up to 300°F!
- Abrasion resistant, semi-closed cell construction
- Terrific memory and available in 1/4", 1/8", 1/2"
- Available in bulk rolls!
- 99.5% moisture resistant.
- OEM specified and approved.

## Benefits

- Silencer's synthetic rubber formulation allows waves to enter and breakdown in the foam.
- Sound waves are "absorbed" and do not bounce back to create noise.
- Provides 30% additional thermal insulation on top of Ultra's 40%.
- Reduces noise and heat.
- No acetone or alcohol surface preparation.
- Simply cut with scissors, peel and stick.
- Installation guide in the box and at [hushmat.com](http://hushmat.com).
- Adhesion guaranteed!

**HushMat is the #1 Rated Automotive Sound Deadening and Thermal Insulation Material on the market! AND all HushMat products have been made in the USA for over 25 years! This stuff works! It makes an incredible difference in the sound, ride and comfort of your vehicle.**
