Product Information

These amazing NEW whips are stronger, better, and more functional than previous generations! Boasting over 150+ different strobe, running, and chasing modes to brag to your friends. The whip has a super thick base and diameter with more bendable material that allows this whip to take a real beating while you are out having fun. At the end of the ride, it contains a quick disconnect that you can take the whip off as you trailer it back and forth from home. The RGB+W allows tons of color combinations and patterns that will mind boggle the spectators. Be noticed while riding!
