FLNT-00664	3/8"-16 GRADE 5 SERRATED FLANGE NUT	6

PARTS INCLUDED	QTY
Running Boards	2
Rocker Panel mounting Brackets	6
Threaded clamp plates	6

GROWLER

Step 1 Starting with driver side, remove any factory-equipped running boards, fasteners, and discard.

Step 2 Next, install the three 5/16" clips into the upper factory mounting locations. (**Fig. A**) **Note:** *The center bracket location will not be used in some models.*

Step 3 Install the three rocker panel mounting brackets using the supplied 3/8" x 3/4" carriage bolts and 3/8" Flanged nuts for the bottom holes. Use the 5/16" x 1" hex bolts and 5/16" washers for the top holes. Leave loose at this time.

Step 4: Set running board along the top of all four brackets and center along the cab.

- Step 5:** Insert the supplied threaded brackets (x3) inside the running board lip over the top of each bracket.
- Step 6:** With the supplied 3/8" x 1" flange hex bolts, secure each mounting location and leave loose.
- Step 7:** After final adjustment, tighten all running board threaded mounts.
- Step 8:** Next, adjust frame brackets so the running board is level with body of the vehicle and tighten all factory-mounting locations.

- Step 9:** Re-peat steps 2-8 for passenger side.
